

Twin Bio (ecoMAX 860P3 S simple v2)

- Installation diagram

NOTE! The diagram does not include all system components.

Caution! Additional modules may be required.

- BP- boiler circuit pump
- HC1- heating circuit 1 pump
- HDW- domestic hot water boiler pump
- C.WU- domestic hot water
- MC- heating circuit C temperature sensor
- MD- heating circuit D temperature sensor
- PMC- heating circuit C pump
- PMD- heating circuit D pump
- SMC- heating circuit C mixing valve
- SMD- heating circuit D mixing valve
- T- heating circuit 1 temperature sensor
- TC- heating circuit C temperature sensor
- TD- heating circuit D temperature sensor
- BH- upper buffer temperature sensor
- BL- lower buffer temperature sensor
- HWP- domestic hot water circulation pump
- WS- outdoor temperature sensor
